For over 43 years GFS has provided quality contract manufacturing from our two centrally located facilities in Pennsylvania for fabrication, piping, refractory, electrical and installation disciplines.

As an industry leader we offer exceptional customer service and the ability to tackle your most demanding projects. GFS is committed to implementing continuous improvement and reduced lead times. Our markets cover pollution control, industrial furnaces, power generation, coal processing, metals processing, material handling, steel manufacturing and the oil and gas industry.

We believe in the highest professional and ethical standards and we are proud to be a supplier to ANDRITZ.
